

S.B. Journal of Biological and Agricultural Sciences

About the Journal

S.B. Journal of Biological and Agricultural Sciences is an online platform for the advancement and rapid dissemination of scientific knowledge generated by highly motivated researchers in the field of agricultural and biological sciences. The journal also welcomes articles of inter-disciplinary nature work. JEBAS publishes high-quality original research and critical up-to-date review articles covering all the aspects of biological, agricultural, veterinary and animal sciences. Journal also published theme-based special issues. The main criteria for acceptance of the articles are novelty, clarity, and significance as relevant to a better understanding of the agricultural and biological sciences.

S.B. Journal of Biological and Agricultural Sciences has strict rules about plagiarism. Any submission that includes parts of already published material will be rejected. This includes any attempt to re-publish already published Materials and Methods paragraphs. The journal features a "one-pass review process," i.e., eligible submissions will be reviewed, and those that need improvements (either minor or major) can be resubmitted only once before the decision about whether to accept or reject is decided by the Chief Editor. All figures need to be submitted as high-resolution files during the initial submission. All articles must be written in English, and the quality of the English language will be one of the criteria during the review process.
